

Nirobon Janjaemla

Computer Engineering

ABOUT ME

- I'm studying Computer Engineering at Faculty of Engineering Kasetsart University.
- I'm interested in programming and ready to learn new things.
- GPAX (5 terms) : 2.81

SKILLS

- C
- Python
- Java
- JavaScript
- React Native
- Figma
- Firebase
- HTML
- PHP
- MySQL
- CSS
- Unix/Linux
- OpenCV

OTHER SKILL

- Creativity
- Critical Thinking
- Good at working as a team
- Be a good helper and supporter.

EXPERIENCE

Website about Meteorological

Oct 2023 - Nov 2023 (Kasetsart University)

- I made a website about Meteorological by PHP, MySQL, and HTML, an MVC programming. It is connecting to the database at PHPMyadmin, this website can add, update, and delete, including data search.
- website: http://158.108.207.4/db23/db23_093

Image Processing-Image Segmentation-Watershed Algorithm

Oct 2023 - Nov 2023 (Kasetsart University)

- I learned about image processing and studied and brought about image segmentation, which is the separation of the image, done using watershed algorithms.
- Link: <https://shorturl.asia/3dB4f>

Autonomous robot development competition using Python language

Dec 2022 (Kasetsart University)

- I am a consultant to the Python robot development contestant and guide coding to command the robot.

Object-oriented program used to take the TOEIC exam

Aug 2022 - Sep 2022 (Kasetsart University)

- My team and I have created a project Calling anything is not as good as TOEIC using Java to development. Within this project, there will be a total of 60 questions from the library. The total of 120 questions will be divided into grammar and vocabulary. The test will be random. Each round is different.

ZES CAMP 14 (software development camp)

Feb 2022 - Apr 2022 (Kasetsart University)

- joined this camp I learned about JavaScript, HTML, CSS and Firebase and then created a project called "Health Me!"
- by the above web app It will be a web app for health care regarding measurement. WHR(waist-to-hip Ratio) to assess health status and risk of obesity. It records the history of filling in information of registered users and also recommends clean food menus to help maintain health.
